## Water Service Turn On Release Form

Dear Water Customer:

You have either requested new water service or restoration of your existing water service. Our personnel will turn your water meter on before the close of business today.

Neither the City of Laurel nor United Water has any responsibility past your water meter. Therefore it is **your** responsibility to insure that all of your faucets in your house (or building) are turned off prior to our turning on your water service. Our personnel will turn your water meter on and will have no responsibility to confirm that your inside faucets are turned off.

If you are requesting new service and would prefer to set up a specific time for the water service to be turned on, we will need a 24 hour notice to set up the appointment. Otherwise, we will turn on your service within the same business day.

By signing below, you accept full responsibility of insuring that all of your inside faucets are turned to an off position.

Thank you,
